

BENCHTOP IONIZER WITH HEATER ($\pm 10V$)

SKU: 131064D

IONIZING AIR BLOWER WITH HEATING OPTION

Benchtop ionizer with heating element. It effectively neutralizes electrostatic charges on a workstation. It combines advanced technology with user-friendly operation and is a reliable solution for reducing static electricity in ESD-sensitive work areas.

Thanks to the integrated **heating option**, it guarantees a comfortable air temperature in every season.

Air ionization is achieved through high voltage (Alternating Current technology), and the device is characterized by a **precise self-balancing of the offset voltage of $\pm 10 V$ or less.**

Specifications

- Supply voltage: 230 V / 50 Hz
- Ozone production: 0.004 ppm
- Dimensions: 476 x 170 x 198H mm
- **ESD safe: No.**
