

ESD MODULAR SHELVING SYSTEM

SKU: scaf_filo

ESD MODULAR SHELVING SYSTEM

ESD conductive shelving system, totally made of **chrome steel**.
Resistant to rust, impacts and scratches.
Easy height-regulation of the shelves, thanks to snap-in sleeves.
Adjustable feet allow better stability, even in case of non perfectly-flat floorings.
This shelving system can be turned into a movable one, adding conductive wheels.

Available parts: four different column-heights, ten different dimensions of the shelves, two different reelbox-shelves
