

COMBINABLE ESD PCB RACK (44 SLOTS) | EM FRAME MINI

SKU: emframe_mini

COMBINABLE ESD PCB RACK

EM Frame Mini - Combinable ESD PCB rack provides a safe storage and handling of mounted PCBs or trays. Made of dissipative polypropilene, its modularity fits easily to all the requested widths.

Rack composition:

- **Sidewall with 44 slots**, dimensions 300x170 mm, width 21mm (El.Mi product Nr.: 149852A)
- **Aluminium connecting rail** with section 37x9 mm, **custom length (max. 3000mm)***** (El.Mi product Nr.: 149853A)

*****ATTENTION:** In order to define the exact connecting rails length, add to the board width **18mm** for each sidewall
