

FAVORIT HAND-OPERATED THROUGH-HOLE PLATING MACHINE

SKU: 146860

BUNGARD FAVORIT THROUGH-HOLE PLATING MACHINE

FAVORIT - Hand operated machine for mechanical through-hole plating. It offers high quality results at a low cost level, thanks to the use of individual tools for each rivet diameter. Optimal contact, even without soldering.

ATTENTION: Punches and rivets are NOT included in the standard supply and must be ordered separately. Different tools have to be used for different diameters.

Specifications

- Dimensions (WxHxD) : approx. 95 x 210 x 300 mm
