

## ONE-SIDE PRESENSITIZED BOARD FR4 POSITIVE (1.5MM, 35MM CU)

SKU: FR4-1.5-35CU-1

### BUNGARD PRESENSITIZED BOARD – ONE SIDE

**FR4 one-side boards, 1.5 mm thick**, copper thickness 35 µm, presensitized with **positive photoresist**. IPC 4101A compliant. Provided with protective film.

**Available in 8 different sizes (mm): 75x100 (101164C), 100x160 (101068C), 125x175 (101349A), 150x200 (101070C), 160x233.4 (101068E), 150x250 (101363A), 200x250 (101071D), 210x300 (101071C).**

The **Bungard original plates** are a guarantee of quality and linearity in the process of **PCB production**. The laminates used for the realization of Bungard plates allow a production error free, fast and flexible even for small series or prototypes.

### VARIATIONS

| SKU     | Description | Dimensions |
|---------|-------------|------------|
| 101068C |             | 100x160 mm |

| SKU     | Description | Dimensions   |
|---------|-------------|--------------|
| 101349A |             | 125x175 mm   |
| 101070C |             | 150x200 mm   |
| 101363A |             | 150x250 mm   |
| 101068E |             | 160x233,4 mm |
| 101071D |             | 200x250 mm   |
| 101071C |             | 210x300 mm   |
