

TWO-SIDES PRESENSITIZED BOARD POSITIVE BASE (1.5MM, 35M CU)

SKU: FR4-1.5-35CU-2

BUNGARD PRESENSITIZED BASE MATERIAL - DOUBLE SIDE

FR4 two-sides boards 1.5 mm thick, copper thickness 35 micron, presensitized with **positive photoresist**, IPC 4101A compliant. Provided with protective film.

Available in 8 different sizes (mm): **75×100** (101187C), **100×160** (101073C), **125×175** (101349B), **150×200** (101075C), **160×233.4** (101068F), **150×250** (101363B), **200×250** (101372B), **210×300** (101076C).

The **Bungard original plates** are a guarantee of quality and linearity in the process of **PCB production**. The laminates used for the realization of Bungard plates allow a production error free, fast and flexible even for small series or prototypes.

VARIATIONS

SKU	Description	Dimensions
101073C		100x160 mm

SKU	Description	Dimensions
101349B		125x175 mm
101075C		150x200 mm
101363B		150x250 mm
101068F		160x233,4 mm
101372B		200x250 mm
101076C		210x300 mm
101187C		75x100 mm
