

METRISO B530 MEASURING KIT WITH 2 ELECTRODES

SKU: 149337C

METRISO B530 MEASURING KIT

MetrISO® B530 test kit includes:

- Digital high-resistance tester
- **1 x Hand-held probe** with connecting cable
- **2 x Cylindrical probe** (2.27 kg, Ø 63.5 mm) with grey conductive rubber and extension
- Conductive case, fitted with dissipative pink foam
- Calibration certificate
- User manual (German, English, French).

Specifications

- Suitable for the measuring of **point-to-point resistance** and **resistance to ground**
- Test voltage / Test current:
Ohmic range: 1 mA = I = 1.3 mA
High ohmic range: DC 10 volts, 100 volts and 500 volts
- Test range:
Low ohmic range: 1 to 10 kOhm

High ohmic range: 1 kOhm to 199 GOhm

- Complies with IEC 61340-4-1, IEC 61340-2-3, IEC 61340-4-5
- Battery operated.
