

RM1000 SURFACE RESISTANCE METER

SKU: 159557A

RM 1000 - SURFACE RESISTANT METER

RM 1000 Meter for the measuring of surface resistance, volume resistance and resistance to ground according to IEC 61340.

Test results can be **exported** via USB in a csv-format file.

Items included in the supply: meter, case, 2 test leads, 2 alligator clips.

Specifications

- Test range: 1 kohm - 1 tohm
- Test voltage: 10 V or 100 V
- Values with one decimal place (1.1 for 106 or 110 kohms)
- Accuracy: < 20% (20°C) of the upper range value
- Adjustable upper and lower limit values
- Automatic adjustment of the measuring voltage
- Coloured, graphical TFT touch display
- Reversible display from standard to scientific
- Numerical and graphical display of the 96 measurement memory
- Built-in temperature and humidity sensor
- Power supply: battery or rechargeable battery (2 x Mignon AA)

- Energy saving settings: adjustable brightness of the backlight, automatic switch off after 5 minutes without pressing a key
- Resetting the device to factory settings
- Running on the operating systems Windows 7, 8, 10
- Dimensions: 115x78x24 mm.
