

S35 ANTISTATIC CLEANING FOAM (200ML)

SKU: 101475A

ANTISTATIC CLEANING FOAM, 200ML SPRAY CAN

S-35 spray foam by Due-Ci Electronic has been studied for **cleaning** and deeply **disinfecting** TV and computer monitors, printers and other office equipments: the functioning of these machines often causes **electrostatic charges** which increase the attraction of dust: S-35 is an effective solution since it cleans and, thanks to its antistatic properties, it prevents the formation of dirt and the nesting of the bacteria.

S-35 is also very good if utilized as a **degreaser** for tables, desks, work or school benches (in metal, plastic, Formica, Plexiglas, PVC...etc).

Compatible with most materials, it doesn't scratch, abrade or streak.

For better results always run a clean and dry cloth over.

ATTENTION: Absolutely avoid that the foam gets in touch with any electric part: do not directly spray either on keyboards, or air-intakes of monitor and TV or any semi-naked circuits.
