

LCP - SILICONE-BASED INSULATING FABRIC ROLL (30CMX1M)

SKU: 981134A

INSULATING FABRIC FOR PCB ASSEMBLY

LC-P - Plastic insulator with high thermal conductivity, suitable for assembling components without the use of silicone grease. Thanks to its very low thermal impedance, this **silicone-based insulating fabric** allows thermal transfer without the need to use grease, while maintaining high insulation (1300-4000 V).

Minimum order quantities: **50 meters and multiples** (Length).

Specifications

- Sheet dimensions (Width x Length): **30 cm x 1 m**
- Colour: **Grey** - Finishing: Smooth
- Material: Silicone-based fabric - Reinforcement layer: **Fiberglass**
- Thickness (± 0.05): 0.23 ~ 0.8 mm
- **Mechanical properties:**
 - Specific gravity: 2.5 g/cm³
 - Tensile strength: 18 kgf/cm²
 - Elongation: 3%

Hardness: 85 ± 5 Shore A

- **Electric properties:**

Voltage breakdown: 4.5 kV

Volume resistivity: $>10^{10}$ Ohm cm

- **Thermal properties:**

Thermal conductivity: 0.3 W/m.k

- Operating temperature: $-40 \sim +80$ °C

- Regulatory: V-0 Flammability rating (UL94), RoHS, PFOA, PFOS, SVHC.
