

STANNOL NO-CLEAN DESOLDERING WICK (8 SIZES)

SKU: 149432

NO CLEAN DESOLDERING BRADE BY STANNOL

Stannol No-Clean desoldering wick has been developed for a reliable desoldering and repair of solder joints without having to be cleaned afterwards.

The copper braze is coated with a special **halogen-free No-Clean flux** which accelerates the solder absorption rate.

Storage in a humid environment does not adversely affect this characteristic. The wick remains flexible and does not oxidise.

Supplied in an **ESD safe anti-static spool**.

Sizes available (WxL):

- **0.8 mm x 1.5 m** – Stannol product No.: **870051**
- **0.8 mm x 30 m** – Stannol product No.: **870094**
- **1.5 mm x 1.5 m** – Stannol product No.: **870052**
- **1.5 mm x 30 m** – Stannol product No.: **870080**
- **2.2 mm x 1.5 m** – Stannol product No.: **870053**
- **2.2 mm x 30 m** – Stannol product No.: **870060**
- **2.7 mm x 1.5 m** – Stannol product No.: **870054**
- **2.7 mm x 30 m** – Stannol product No.: **870078**.
