

STLED SMART TWEEZERS - SMD/PTH LED TESTER

SKU: 131773L

SMART TWEEZERS LED TESTER

Smart Tweezers ST-LED - Specialized solution for testing SMD and PTH LED components.

This lightweight, battery-powered instrument consists of a digital adaptive tester with OLED display and a pair of high-quality gold plated tweezers. It tests a variety of LEDs, even when assembled on board.

Specifications

- FEATURES
 - Current value & Duty cycle control
 - Variable test current
 - Automatic polarity detection
- JOYSTICK-TYPE CONTROL
 - UP-DOWN for testing current
 - RIGHT-LEFT for testing pulse duration
- TIPS
 - Tip type: **Straight**
 - Material: Stainless steel SA, Anti-magnetic, Anti-acid

- Coating: Gold plating (24 carats) – Thickness: 2-5 microns
- Tip dimensions (LxTxW): 32 x 0.25 x 0.40 mm
- Dimensions (OALxWxH): 155 x 25 x 20 mm
- Net weight: 31 g
- ESD safe: No
- RoHS compliant: Si
- Battery: 3.7 V LiPo Rechargeable, 180 mAH.
