

FLOOR PROTECTION CONDUCTIVE ESD MAT (1.2X10M, TH.4MM)

SKU: 640915A

ANTISTATIC FLOOR PROTECTIVE MAT, 4MM

Heavy Duty - ESD safe conductive rubber matting with non-slip finishing.

Manufactured to be placed in busy areas or around machinery such as, for example, wave solder machines. This mat should ideally be used as a protection over already grounded floors. The single-layer material which is made of is highly durable and long lasting.

Specifications

- Colour: **Black**
- Dimensions: **1.2 x 10 m** - Thickness: **4 mm**
- Surface: **Non-slip** finishing - Resistant to most oils and acids - Solder-splash resistant
- ESD properties: **Conductive**.
