WELLER WXR 3 DIGITAL CONTROL UNIT

WXR 3 - Multifunction power unit 420 W (600 W) with 3 channels.

All-in-one station suitable for all applications. Can work with all WX tools.

A pair of integrated pumps make the system independent of a separate compressed air supply: a high-performance pump for **vacuum** and **hot air**, and a separate vacuum pump for **pick-up tools**.

The rework station provides **600 watts of power**. Its intelligent power management function allows the available power to be distributed to the connected tools as required. High-performance tools can be operated at the same time (3 channels, 200 watts each).

The LCD display shows all connected tools. Special functions can easily be set at the press of a button.

Other functions: automatic tool recognition and power management, benchtop controller capability (e.g. Zero Smog systems).

Weller product no.: **T0053500699N**.
